CABIN & COCKPIT ENTRY HARDWARE

Strikers & Accessories

Striker

- M/S Strikers are suitable for the McCoy, Compact, Offshore and Omni swing door latches. They are available in seven different sizes and suitable for many door and frame configurations and door thicknesses
- The striker tongue holds the spring bolt and prevents it from being worn out due to vibrations from the boat
- You can choose to order the strikers with or without dustbin. The dustbin hides the sawdust in the cut out hole and provides an elegant finish to the frame edge
- The strikers are available both in brass and nickel plated brass finishes

To find the right striker for your application, measure the distance from the door face to the edge of the springbolt of the latch.
