MADE FROM 100% RPET YARN

MANUFACTURED FROM 100% WASTE PLASTIC BOTTLES

DIAMETER:

12-16mm

CORE:

12 STRAND rPET CORE

COVER:

24 PLAIT rPET COVER

COLOUR:

BLACK

APPLICATION:

MOORING

The **BLUE OCEAN DOCKLINE**, made from 100% recycled plastic bottles is exclusive to Marlow's Mooring Series this year. Made from rPET (recycled polyester yarn) this eco-conscious dockline is available pre-spliced in 12-16mm diameters in lengths from 6m to 12m with a 1m spliced eye with Sailmakers whip at throat and opposite end.

The unique construction offers the same popular attributes as Marlow's regular Dockline, including good abrasion resistance and shock absorption with soft and supple flexibility and zero strength loss or shrinkage.

DIAMETER		CIRCUMFERENCE		MASS		AVERAGE STRENGTH			MIN STRENGTH	
mm	Inch	g/m	lb/100 ft	kg	lb	kN	kg	lb	kN	
12	1 1/2	99.4	6.67	3610	7940	35.4	3250	7150	31.9	
14	1 3/4	124	8.33	4510	9920	44.3	4060	8930	39.8	
16	2	162	10.8	5860	12900	57.5	5280	11600	51.8	

Packaged in environmentally friendly FSC cardboard cartons.
